ESCORT

LASER

Get on the bright side of the road

ESCORT LASER VAN

On the road, the new Escort Laser Van helps maintain those tight delivery schedules in today's commercial world. Offering an eye-catching exterior and economic performance from the 1.6 diesel engine with 5-speed transmission the bright new Escort Laser Van delivers real value for money. A two-tone body colour scheme is featured, with the lower body finished in Dark Grey, and a choice of three body colours for the upper panels. Diamond White, Rosso Red and Metallic Strato Silver, neat tape striping from front to rear and tri-coat White wheel covers completes the picture.

Inside, the drivers environment is enhanced by the clear instrumentation layout and convenient controls. Driver and passenger are offered seating in durable Helix cloth trim, the reclining seats feature adjustable head restraints.

At the 'business end', twin rear doors open to reveal a spacious load compartment fitted with load restraint hooks, to help keep the most fragile of items in place.

ESCORT LASER VAN FEATURES:
