ESCORT HIGH ROOF

PRODUCT INFORMATION

The Ford Escort Van High Roof Conversion has been specifically designed to offer even greater operating flexibility. An increase in load cube of 0.41 cu mtrs (from 2.25 cu mtrs to 2.66 cu mtrs) over the standard van improves capacity for bulky or awkward loads and also the height available for side or floor mounted racking. Fully extended rear doors provide easy access to the whole load area whilst retaining all their tried and tested features.

Roof and door extensions are manufactured in high quality polyester bonded into place, retaining vehicle integrity without affecting Ford's multi-stage anti-corrosion treatment.

MODEL RANGE

The high roof conversion is available to the entire Escort van range, including all drive line combinations (refer to the chart).

N.B. Not available for Escort Combi.

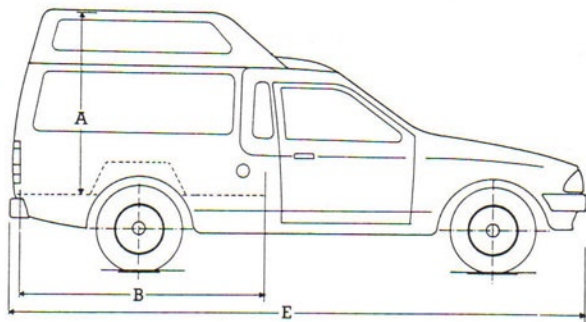

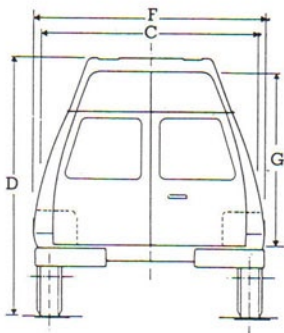

OPTION AVAILABILITY

Body colour roofs and door extensions are available in the following production finishes:

- Diamond White
- Rosso Red
- Maritime Blue
- Galaxy Blue

SVO Colours can be provided but carry the same restriction as for ordering non-high roof variants.

Model	TRANSMISSION	G.V.W. (kg)	NOMINAL PAYLOAD (kg)	MAXIMUM PAYLOAD (kg)
POPULAR 35 VAN				
1.3P	4 Sp.	1350	350	410
